

## Futura Hard Anodised **Kadhai (Deep-Fry Pan)** **2.75 Litre (26 cm Diameter)**

This Manual was written for the 2.5 litre Futura Hard Anodised Deep-Fry Pan shown on the cover. All instructions and recipes in this Manual – along with the additional information on this page – are valid for the 2.75 litre kadhai shown below.

This kadhai has a round bottom with two short handles. It may be possible to reduce the **Oil for Frying** quantities (given in the recipes) by about  $\frac{1}{4}$ cup/60 ml depending on the recipe and the care you take while deep-frying. In the *Medu Wada* recipe, oil for frying reduced by  $\frac{1}{4}$  cup/60 ml is sufficient for frying a batch or several batches but the oil may require to be topped up when cooking a full recipe because *wada* absorb more oil.

### **CAUTION**

Do not leave the ladle in the kadhai while deep-frying or cooking.
